

SciPris -

- a service automating the collection of publishing charges.

SciPris is an online payment platform that allows you to pay and manage various charges associated with the publication of your paper, including:

- **Open Access Article Processing Charges (APCs)**
- **Color in print fees**
- **Page charges**
- **Reprint purchases**

Features

- Visually rich user interface for easy management of publication charges.
- Provides secured online financial platform.
- SciPris connects journals to authors, universities and funders.
- Easy-to-use platform for publishers to auto-calculate, generate invoices, collect and track publication fees.
- Provides secured API-based integration with all major payment gateways and publisher production systems.
- Auto detection of publication charge according to journal title.
- Provision for splitting of charges among co-authors.
- Collection service to recoup outstanding/unpaid charges.
- Completely web based and works on all browsers.
- No client software installations required.
- Supports local currency.

Benefits

- Single window, end-to-end payment solution for Article Processing Charges.
- Access controlled and secure online system.
- Facilitating easy and transparent payments.
- Providing multiple payment options and gateways for paying publishing fees.
- Convenient splitting of fee among co-authors and/or institutions/funding agencies.
- Auto fetching of author metadata and payment details via publisher API integration.
- Automatic invoice generation and payment link transmittal to concerned parties.
- Easy notifying, tracking and reporting.
- Customised reporting, frequent alerts, and tailored configuration options to align with their journal/business policies.
