

Cataloguing and Acquisitions

3 WAYS to manage your collections

No matter what your cataloguing and acquisition management needs, your library's collection will be under your complete control with these 3 solutions:

ONE: SabiCat **TWO:** Electronic Resource Management
THREE: Dewey Decimal Classification[®] system

Manage your library's electronic and printed material collections from end to end:

acquisitions | subscription management | automatic management of holdings and records
in the library catalogue | access to electronic resources

SabiCat

Experience the power of cooperative cataloguing with WorldShare[®] Record Manager. Benefit from the continuous work and expertise of OCLC and member libraries worldwide to collectively create, enhance and share quality records in WorldCat. Unlimited access to WorldCat allows you to quickly find the records you need, so that you can copy catalogues from one source instead of doing original cataloguing. Increase efficiency through automated processes, and contribute new, quality WorldCat records for your unique material.

YOU:

- Will improve your cataloguing efficiencies while reducing costs.
- Are able to subscribe to the WorldCat knowledge base with its incorporated link resolver software, A-Z lists and integration with the WorldShare[®] Collection Manager for management of your electronic resources.
- Only need an internet browser.
- Can access and edit WorldCat through your integrated library management system.
- Will see an increase in the visibility of your holdings worldwide, which will lead to more efficient use of your collections.
- Will experience increased resource sharing as all holdings and records added by Southern African libraries are added to the SACat, a union catalogue for the region.

Cataloguing and Acquisitions

3 WAYS

to manage your collections

Electronic Resource Management

With a SabiCat subscription, which includes WorldShare® Collection Manager and WorldCat knowledge base at no extra charge, libraries can automate collection management and access processes for electronic resources. WorldShare® Collection Manager streamlines your electronic and print workflows, which saves you time and improves your catalogue so all of your resources are easier for your users, other libraries and people around the world to find, request and access. By adding the WorldShare® License Manager service, you can easily manage the subscription process and the entire electronic resource management process.

YOU:

- Get the services required for managing electronic collections with your SabiCat subscription at no extra charge.
- Get automated maintenance of holdings on WorldCat, and your library catalogue is enabled for electronic resources.
- Get improved e-resource workflow efficiencies and increased collection visibility.
- Get easily discoverable content and a lower cost of maintaining electronic collections.
- Get to manage all of your electronic resources with WorldCat knowledge base collections.

WorldCat knowledge base collections enable you to:

- Provide easy access to electronic resources in search results,
- Quickly and easily share your electronic resources with other libraries,
- Manage budgeting, ordering and acquisition of electronic resources,
- Control access rights and link resolution of electronic resources, and
- Develop custom solutions that embed your knowledge base collections.

Dewey Decimal Classification® System

The world's most widely used classification system can organise every item in your library's unique collection. WebDewey® is the electronic version of the DDC system. WebDewey® is the easiest way to use the DDC to organise and classify library collections.

YOU:

- Get online access to the classification system.
- Are able to streamline your workflow. The current edition includes structural changes to improve usability and simplify classification tasks.
- Get online access to the DDC classification system.
- Have the most-up-to-date DDC numbers available, based on an array of continually evolving topics and languages.
- Searching or browsing DDC numbers, Library of Congress Subject Headings (LCSH), and mapped MeSH headings.
- The ability to add your own notes and display them in context.
- An easy-to-navigate user interface that is suitable for the novice as well as the power user.
