

# Sabinet Legal Registers

## 6 WAYS

Sabinet Legal Registers delivers benefits

[discover.sabinet.co.za](https://discover.sabinet.co.za)

Sabinet Legal Registers, provided in partnership with Libryo, takes the effort and stress out of managing your organisation's corporate governance and legal compliance.

✔ Environment    ✔ Health & Safety    ✔ Quality    ✔ Energy    ✔ Other ISO Standards

You'll get a single dashboard view of detailed and well organised information as well as updates of relevant legislative changes that affect your industry with descriptions of how these changes impact your operations.

### Full scope legal register platform

All the regulatory legal requirements, applicable to each site. You can have unlimited users.

### Truly site specific

Each legal register is uniquely configured to a site's location and activities. The service is equally powerful for companies with multiple international operations.

### Powerful search

Specifically designed to be intuitive to find exactly what you're looking for. Legislation comes with plain English summaries.

### Real-time updates

Never miss a legal update. These updates will allow you to track changes in your applicable legislation.

### Interactive dashboard feed

Shows an activity log and communication feed. This allows users to message and log important information around their legislation.

### Integration

Can integrate with any GRC software platform through our API as well as any Excel or Word risk assessment and audit report.

# Sabinet Legal Registers

Know your law from all law

Sabinet Legal Registers allows you to classify your sites according to location, industry and risk item.

Sabinet Legal Registers delivers real benefits for:

## RISK MANAGERS

It is the only platform that enables operational risk and legal risk to be managed in an integrated manner.

## COMPLIANCE MANAGERS

It is the most time-efficient way to know which legal sections apply to their different operations, keep track of changes and understand the implications.

## MANAGEMENT SYSTEM SPECIALISTS

It precisely integrates with management systems and keeps them up to date.

## IN-HOUSE LEGAL TEAMS

It does 'robotic legal tasks' better than they could, leaving them to add real value to their companies.
